Monitoring and Evaluation

Helge Brunborg

2nd TRAINING WORKSHOP
ESCAP, Bangkok, 6-10 March 2017

Monitoring

- ◆ Should be an an integral part of the CR system activities
- ◆ Principles of CR useful framework for monitoring
 - ◆ Universal and compulsory
 - ◆ Continuous and permanent
 - ◆ Confidential
 - ◆ Regular dissemination
- ◆ Need to develop performance indicators for each principle
- ◆ Not related to the production of VS

Universal and compulsory

- ◆ Monthly reporting (at least)
- ◆ Reporting at every geographical level
- ◆ Indicators
 - ◆ Number of registrations
 - ◆ Number of incomplete or incorrect registrations
 - ◆ Crude rates of registrations
 - ◆ Ratio of registrars to total population
 - ◆ Average distance to local registration centre
 - ◆ Completeness rates

Continuous and permanent

- ◆ Average no. of registrations per registrar per week or month
- ◆ Average time per registration for each type
- ◆ Availability of online system
- ◆ Quality control of the data at each geographical level?

Confidentiality

- ◆ Is there a protocol for protecting information on cause of death from being disclosed?
- ◆ Are the physical setting of the local registrar and registration centre facilities favourable to confidentiality?
- ◆ Are records anonymised before being transmitted to other agencies?
- ◆ Is staff trained on confidentiality and disclosure rules and regulations?
- ◆ No. of cases of misuse of CR data?

Regular dissemination

- ◆ How frequently are data transferred to the statistics office? Micro or macro?
- ◆ Frequency of VS reports?
- ◆ Most recent VS report includes data for which year(s)?
- ◆ Contents of the VS report? (no. of tables, graphs and maps on each vital event)
- ◆ What kind of feedback does the VS office provide to the CR office?
 - ◆ At the aggregate level (incl. strange results?)
 - ◆ At the micro data level (incl. errors in data?)
- ◆ Progress towards targets

Exercise

1. Which process CR indicators do you have of the CR system? Are these published? By whom, where and how often?
2. ESCAP:
