# Two-pronged approach to ensure RAF achievement

Action Items

# Actions to strengthen regional support by dev partners

- ✧ Interdisciplinary teams to visit neighboring countries to facilitate discussions and peer learning. Prioritization should be given to the cooperation within sub-regions on topics such as:
  - ✧ Survey methodologies
  - ✧ Research
  - ✧ Evaluation
  - ✧ Target setting
- ✧ Technical assistance should be undertaken among and between member countries on identification and outreach to marginalized communities
- ✧ Existing resources for identifying marginalized populations can be shared among concerned member countries such as UNICEF's Passport to Protection, and the Bali Process Toolkit.

# Actions by the Secretariat

- ✧ Prioritize follow-up with countries which have baseline reports underway to assist them in completing the process.
- ✧ Create a summarized baseline report analysis which paints more of a picture of the situation in the Region, with specific calls for action.
- ✧ At the intergovernmental level a multi-sectoral approach should be pursued, including more prominent inclusion in such fora as :
  - ✧ The Asia Pacific Forum for Sustainable Development
  - ✧ Subsidiary committees of ESCAP (i.e. social development and statistics).

# Actions by the RSG

- ✧ Examine the National Coordination Mechanisms to identify good practices and lessons learned in addressing multi-sectoral cooperation among ministries.
- ✧ Develop a strategy to ensure that CRVS is well reflecting in existing SDG programs.
- ✧ The RSG should identify key gap areas where resources should be targeted, including:
  - ✧ Adoption of ICD Coding
  - ✧ Digitization of CRVS Systems
- ✧ Communications subgroup to advocate and promote the visibility of CRVS for SDG issues at the intergovernmental level
