

Asia-Pacific CRVS Research Forum

3–4 April 2023 | Bangkok, Thailand

Speaker bio: Dr Tim Adair, Principal Research Fellow, Nossal Institute for Global Health at The University of Melbourne

Dr Adair is a demographer whose primary interest is working with Governments of low-to-middle income countries to strengthen their CRVS systems and improve the quality of health data available to policymakers.

He is active in developing and teaching methods and tools to assess the quality of mortality registration systems and generate key mortality indicators from incomplete data.
